

PDF Attachments

The Prestimator gives you the ability to attach important PDFs to a Quote for later review and retrieval. This is helpful to keep signed documents, such as an invoice, or handwritten notes from a job ticket linked to the Quote with which they are associated. Simply click the View button to launch a PDF Viewer to review the attached document. Drag and drop PDF documents directly from a Windows Explorer window into the Attachments Viewer for a given Quote is functional.

Click the View button to use the built-in PDF reader to display the corresponding PDF attachment.
