

Quick Quote

An estimate can be created quickly using the Quick Quote feature. Enter basic job specs and select items from the custom dropdowns to create a complete and accurate Quote in just seconds, based on your default Shop Settings' costs and standards. Once the Quick Quote is completed, navigate through the Job Specs screens to add more details or customize the Quote.

The screenshot displays the 'Quick Quote' software interface, which is organized into several sections for configuring a print job. At the top, the 'General' section includes fields for 'No Copies' (10000), 'Product Size' (11 X 17), 'Total no. of Pages' (32), 'Cutoff' (22.750), 'Format' (Tab), and 'Location' (Coldset Pressroom). Below this is the 'Pages in Sections' section with 'S1 Pages' (16), 'S2 Pages' (16), 'S3 Pages', 'S4 Pages', and an 'Inserted?' checkbox. The 'Paper' section specifies 'Paper' (30 ~ Newsprint ~ White ~ Sample Paper Manufacturer), 'Type' (Newsprint), 'Color' (White), 'Width' (34), and 'Basis Weight' (30). The 'Folding' section offers options like 'Fold 1/2', 'Fold 1/4', 'Double-Parallel', and 'Other Fold'. 'Color Ink' is set to 'Color?' and 'All Pages?' with a 'Type' of 'Process color' and a yellow 'Color' selection. 'Composition' includes checkboxes for 'All Pages?', 'Disk Supplied?', 'FTP?', 'Email?', and 'Edit required?'. 'Proofing' is set to 'Proofing?' with 'Press Proofs' and 'All Pages?' checked. 'Bindery' is configured for 'Binding?' with 'Stitch and Trim' and 'Finished Size' fields. 'Finishing' is set to 'Finishing?' with 'Poly Bagging' and a 'Quantity' of 10000. 'Mailing' and 'Packaging' sections have various checkboxes and quantity fields. Finally, the 'Delivery' section includes 'Customer pickup?' (checked), 'Delivery?', 'Ship to customer?', and 'Office Copies' fields. At the bottom, there are buttons for 'Load All Defaults on Apply', 'Apply', and 'Cancel'.
